

Now Hiring: Full-time Junior Mechanical Engineer

ABOUT US

Arcadia Environmental Solutions Sdn. Bhd. (AES) provides technical consulting, upgrading, replacement, maintenance and construction service for Air Pollution Control System such as Industrial Dust Collector (ESP/FF). We offer aftermarket parts and overall revamping/retrofit works for old dust collector from all ESP/FF makers, while providing consulting service for regular or emergency maintenance works. We have expanded our focus market to other countries in Southeast Asia like Thailand, Philippines, Malaysia and Indonesia, which consistently receive first-rate service from our team. With technology behind the expertise, we stand behind our products with highest warranty.

WORK DESCRIPTION

- Reviewing report/test work and applying the data to equipment selection
- Performing conceptual, feasibility and detailed mechanical design work, including equipment and specifications and plant layouts
- Performing material balances and process control descriptions
- Preparing, writing and reviewing proposals and project reports
- Visiting client facilities at sites throughout Southeast Asia
- Interacting with clients and being responsible for project deliverables and client satisfaction

QUALIFICATIONS

- Bachelor/Master of Science degree in Mechanical Engineering or equivalent (e.g.: Chemical Engineering, Civil Engineering)
- Current status as (or future eligibility for) Professional Engineer
- Knowledge of 3D design software (AutoCAD, Inventor, Solidworks, etc.)
- Excellent written and verbal communication skills
- Ability to work in a collegial environment as a team player with strong people skills

- Be well versed in risk assessment and general Health & Safety requirements
- Be available for local and international business travel and extended working hours when required

BENEFITS

- Holiday incentives for Three Chinese Festivals
- National Health Insurance and Labor Insurance provided
- Year-end Bonus and Performance Bonus
- Paid-leave (including sick, maternity, paternity, marriage and compassionate leave)
- Subsidies for transportation and education
- Full company internal training
- Company trip
- Flexible working hour
- Business travel allowances
- Team building events

REMARKS

- Salary can be discussed during interview or in accordance with company's regulations
- Work permit and ARC will be provided for foreign students
