### 布拉格生命科學大學-阮o丰-倒映與彩光

新年初始，2023/1/1，校園一隅，和兩位朋友在新年第一天在無人的校園內散步，正值黃昏時間，背景是學校新落成的環境科學學院，鏡子般的外觀倒映著藍橘彩光，最漂亮的一個時刻。

I walked around in our campus at the first day of 2023 with two of my friends. There was no anybody in the campus at sunset. The building in the background is a new building called Faculty of Environmental Sciences. The wall of the building looks like mirrors and reflects the gorgeous light. The pinky blue and orange lights make this moment incomparable and beautiful.
