學校簡介  
Introduction

Kyushu University's history can be traced back to 1903 when it was established as Fukuoka Medical College affiliated to Kyoto Imperial University. In 1911, Kyushu Imperial University was re-established as one of the former seven imperial universities in Japan, and it was renamed to Kyushu University in 1947. In its history of nearly 100 years, Kyushu University has contributed to higher education in Japan. In October 2003, the university has taken advantage of new research opportunities by integrating the Kyushu Institute of Design. This integration created a unique academic environment where Science of Kyushu University and Aesthetic sense and creativity of the Kyushu Institute of Design were merged. Kyushu University was reorganized to become a national university corporation in April 2005, having been striving for further progress of education and research. Kyushu University has 8 campuses including the newly built campus in Ito area. The Faculty of Engineering moved to Ito Campus in October 2006, and other faculties will be relocated over the next ten years. With an undergraduate enrollment of 12011 and a graduate enrollment of 7186, Kyushu University has currently 11 undergraduate schools, 17 graduate schools, 3 attached research institutions and 1 university hospital. There are 3258 faculty members and 2607 administrative staff currently employed. What our society demands us the most is that the outcomes of our education, research, social contribution, and international cooperation should be plowed back into society in the visible form and also we should establish our strong presence. In order to meet this demand, Kyushu University has initiated a new reform to accomplish and further develop world-standard and advanced education and research.

學期制度  
Academic  
Calendar

秋季 Fall Semester

春季 Spring Semester

October 2024-March 2025  
Application deadline :  
2024/06/01

April 2025-September 2025  
Application deadline :  
2024/12/1
