## Instructions

### Generalities

This calculator is intended **ONLY** if you are applying for a Jean Monnet **Module**, a Jean Monnet **Chair** or a Jean Monnet **Learning EU Initiatives** project. You can not use it for proposals in other Jean Monnet areas than Modules, Chairs, Learning EU Initiatives.

This calculator will help you identify the total EU Grant amount based on the lump sum per country that corresponds to the total number of teaching hours of your project as defined in the Work Programme.

Please read these instructions carefully.

### How to use the calculator

On the sheet entitled 'Calculator Teaching Hours', please first select the topic you are applying to from the drop-down menu (Modules, Chairs, or Learning EU Initiatives). Please double-check that you have selected the right topic for your project.

Then select the country from the drop-down list. All the countries are listed alphabetically by their English name. Please double-check that the country selected is correct for your project.

For Learning EU initiatives applicants must be established in an EU Member State or third country associated to the Programme.

Once you have selected the topic and the country, the rest of the form will become available.

For Chairs, the Chair holder must specify being or not a permanent staff member at the applicant Higher Education Institution.

Fill in the list of professors and specify the total teaching hours for each of the 3 years of the project as follows:

- Column 1:
  - Row 18 - **Chair holder, Module leader / academic coordinator, or Learning leader / academic coordinator**
  - other rows - **Name of the professor**: indicate the name of the concerned persons, one person per row, maximum 7 professors
- Column 2 - **Hours Year 1**: the number of teaching hours in the first year of the project
- Column 3 - **Hours Year 2**: the number of teaching hours in the second year of the project
- Column 4 - **Hours Year 3**: the number of teaching hours in the third year of the project
- Column 5 - **TOTAL HOURS**: automatic calculation of the teaching hours in 3 years

After introducing and finalising the table, the calculator will indicate in cell H42 at the bottom of the sheet, the EU Grant amount calculated for your project.

**VERY IMPORTANT:** please insert the lump sum amount as determined in this calculator in Part A ('edit e-forms') of your proposal. Please double-check the budget requested in Part A, section 3 - Budget is the same as the lump sum calculated for your project.

### 3. The calculated grant amount.

Automatically, based on the total of teaching hours, the selected country and the chosen topic, the calculated grant amount will be determined. Make sure you fill in this amount in the budget of your proposal before submitting.

Submitting a proposal when the amount of the budget of that proposal is not the same as the amount calculated by the calculator might make your proposal ineligible.

Please, select:

The topic you are applying for:

Modules

The country of the applicant of the proposal:

Thailand (TH)

If your country is not listed, please, select OTHER COUNTRIES.

The form is not valid: the total of each column must be minimum 40 hours.

JMO Modules Teaching Hours

The lump sum is calculated based on the total number of teaching hours.

A Jean Monnet Modules must include a minimum of 40 teaching hours per academic year.
